

↳ copy list with random pointer.

↳ why generic copy cannot be done.

↳ because random pointer can point to a node
which is not yet created.

↳ using the map, get the cloned pointers from the original pointer

1	1
10	10
11	11
13	13
7	7

$\langle \text{node}, \text{node} \rangle$
