

↳ minimum number of platforms required for a railway.

arr[] = [900 945 955 1100 1500 1800]

dep[] = [920 1200 1130 1150 1900 2000]

intersecting

Bruteforce → for each train, check if it intersects with other trains

↳ Intersections

arr
•

dep
•

•

• → arrived first, dep't after

•

•

→ arrived first, dep't after

•

•

→ arrive later, dep't later

•

•

→ arrive later, dep't before
