

↳ Rotate a linked list by k places

↳ what we

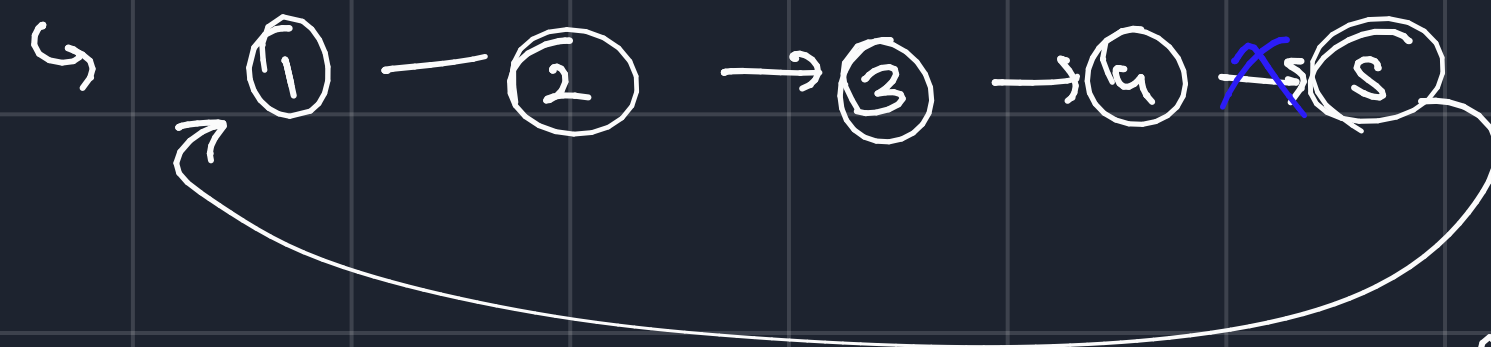

need to include is clamping
of k to $len - k \% len$

↳ without dis $\rightarrow O(n \times n)$

↳ with $\rightarrow O(n) + O(k \times n \times n)$
↳ max $\rightarrow (n-1)$

prev next $\rightarrow$ temp
null
temp $\rightarrow$ next-head
head = temp

↳ optional

↳ make a circular

↳ node where we

break

need to break the

→ 5.

$$\text{Link} :: \text{len} = \text{K} \times \underline{n}$$

$$= 5 - 1 \times 5$$

$$= 5 - 1 = \underline{4}$$
