

↳ stack and queue → Theory.

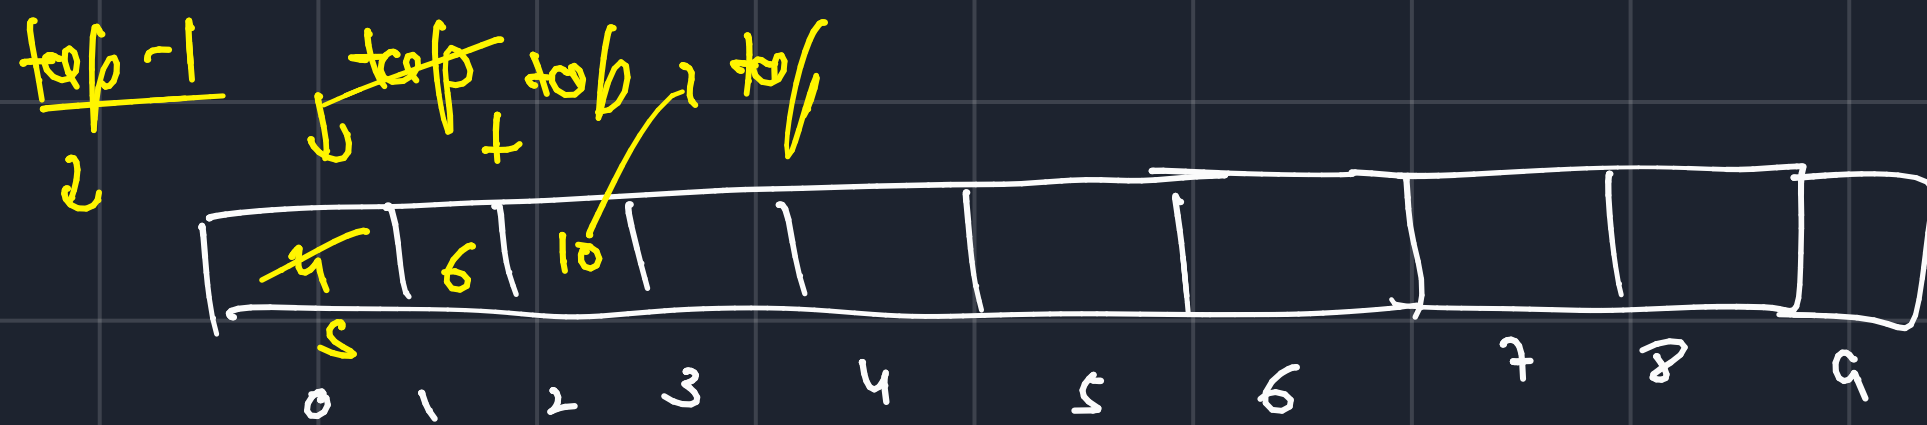

↳ stack (LIFO)

↳ last in

first out.

queue (FIFO)

stack using arrays → for this implementation → size must be known.

push(4)

pop()

top() → null

push(1)

push(6)

push(10)

size → top + 1 → 3

→ stack using LL

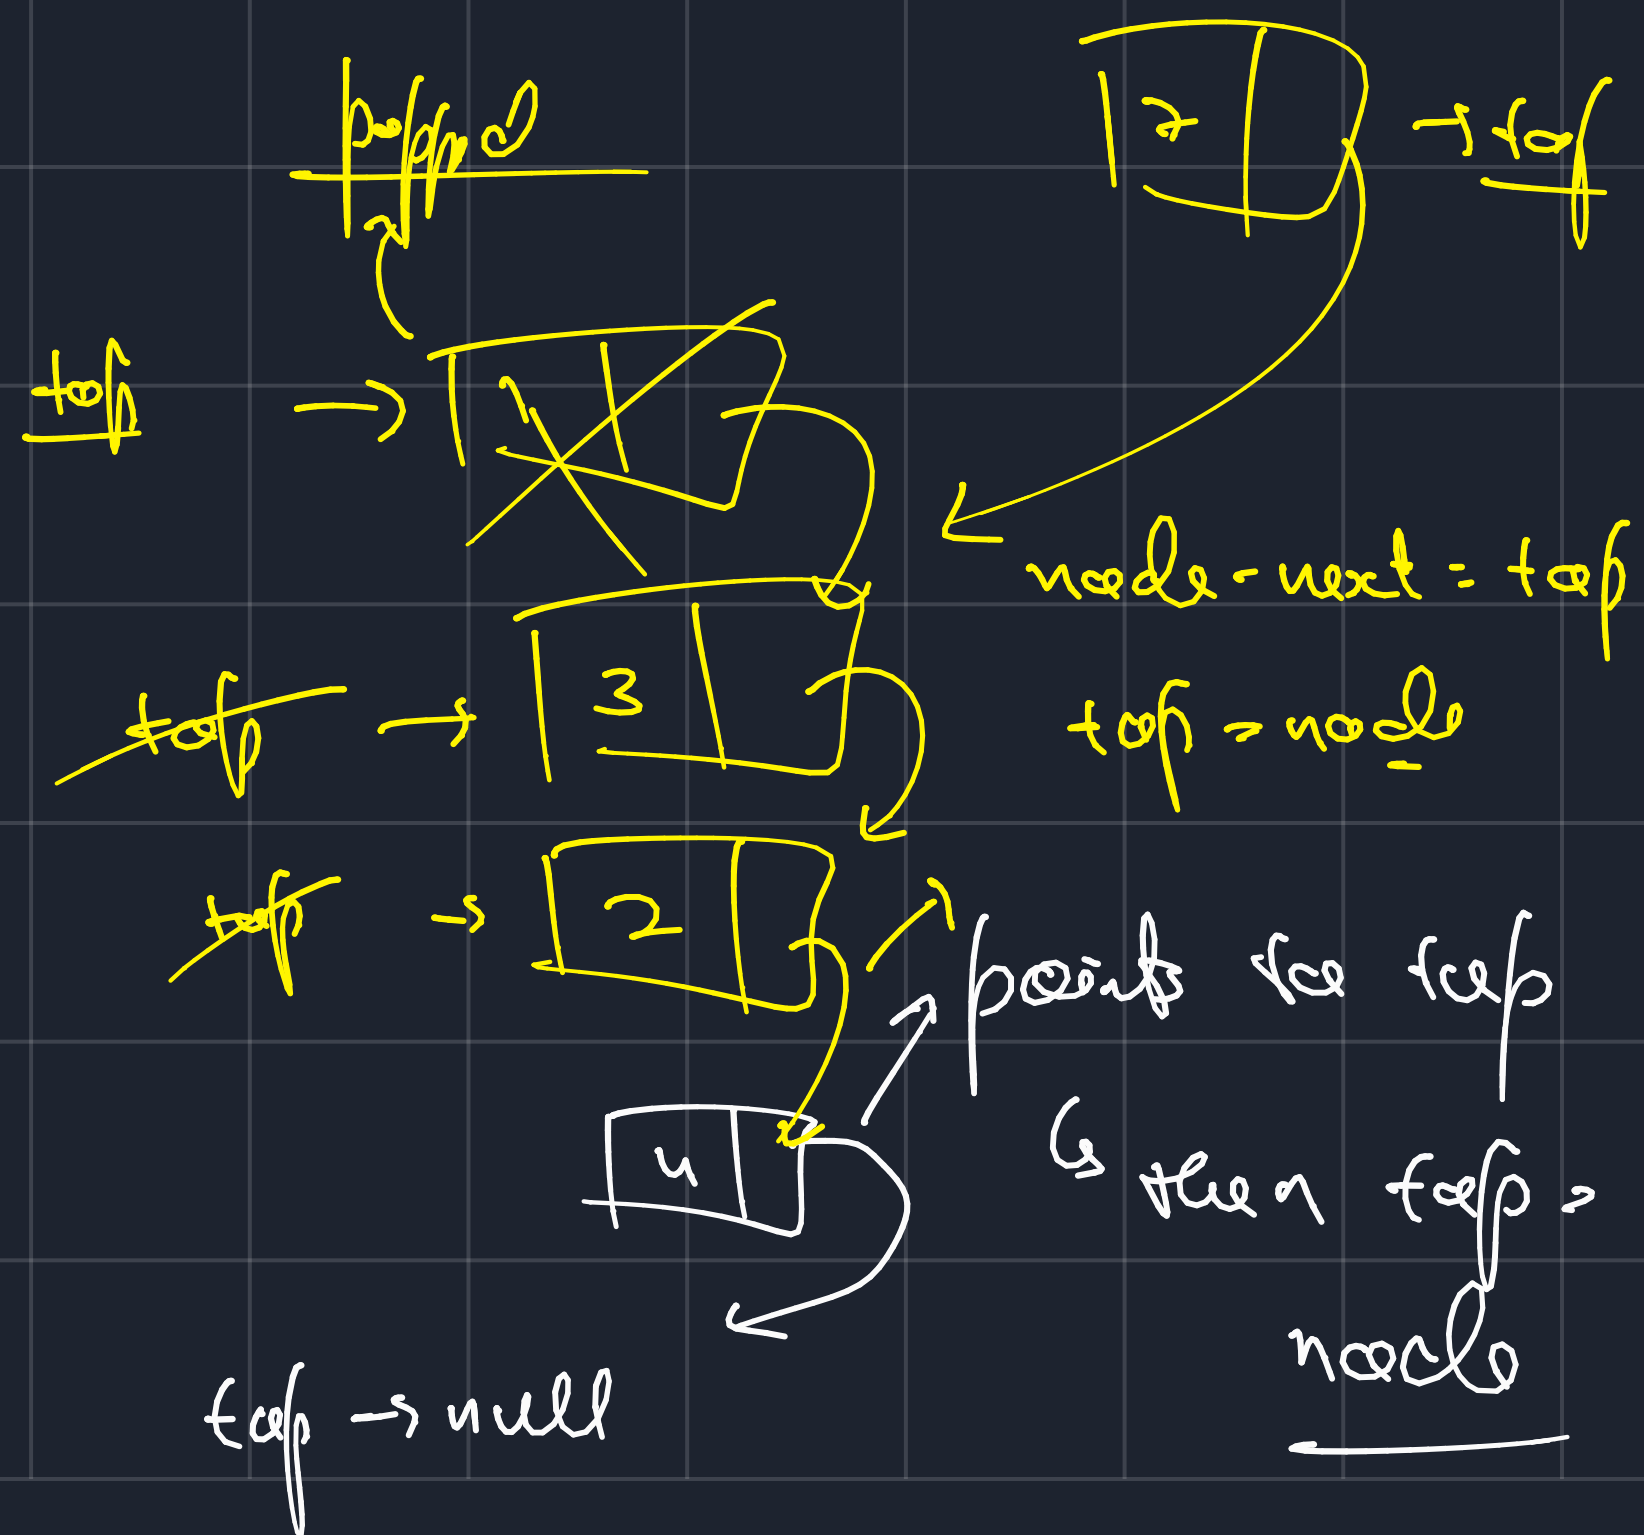

↳

pop:

temp = top

top = top -> next

delete temp;
